

# Stratodesk Enables Security and Accessibility in Healthcare VDI

How Stratodesk works with Citrix to solve common obstacles facing Healthcare VDI

Citrix Ready  
Partner Pavilion  
HIMSS'19

booth  
**#527**

## Stratodesk empowering the healthcare customers

✔ **Boost Security and Accessibility**  
with NoTouch + Imprivata

✔ **Streamline Management** with  
NoTouch Center

✔ **Save on Costs** with PC  
Repurposing

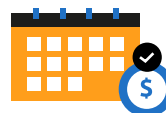

## Stratodesk works with Citrix to solve significant obstacles facing Healthcare VDI

- Software Based Thin Client OS for x86 and Raspberry Pi devices
- Manage your entire VDI on premises or from the Cloud with NoTouch Center and NoTouch Cloud
- Enterprise ready, highly scalable management with asset tracking, reporting engine, user roles, and certificates
- The only management solution for x86 and Raspberry Pi Thin Clients, including the Citrix Ready workspace hub, in the same environment

## Transform your x86 PCs, Thin Clients and laptops into secure, high performing NoTouch Clients

Stratodesk NoTouch Desktop reduces PC replacement budget in a typical healthcare environment by **40%**

Stratodesk NoTouch saved **13 weeks** of IT technician per year and **30k** from repurposing laptops in higher education

Stratodesk rolled out **10k endpoints** in only a couple of weeks!

## At HIMSS'19, join us to see

- ✔ Live Demos of NoTouch Desktop, Imprivata on NoTouch and the Citrix Ready workspace hub –plus the cutest swag at the show!

Meet us at Citrix Ready Partner Pavilion  
**booth 527**
