NoTouch delivers extensive benefits to educational institutions

STANDARDIZE endpoints, cut maintenance costs and save IT resources

MANAGE, configure and update endpoints at multiple sites from one location

HIGHLY SCALABLE management solution with asset tracking, reporting engine, user roles and support for certificates

DECREASE boot-up/log-in time while increasing endpoint security, accessibility and productivity

NoTouch Desktop is the leading endpoint OS and management suite for both x86 & ARM based devices with full HDX support (Flash Redirection, Skype for Business, H.264, smart card and Single Sign-On Support)

- ✓ Repurposes any existing hardware (x86 and ARM/ Raspberry Pi) to increase ROI
- ✓ Supports various boot options including “live boot”, network boot (PXE) and installation from hard disk or flash drive
- ✓ Enable BYOD by using any USB stick as a portable, preconfigured Thin Client
- ✓ Runs on the Citrix Ready workspace hub, NVIDIA Jetson Nano and LG Thin Clients

All-in-one, comprehensive EUC solution for education that delivers full configurability, scalability, Single Sign-On and multimedia support

Citrix and Stratodesk help educational institutions save money

NoTouch PC Repurposing saves school districts up to **85%** by removing the need to purchase new hardware

University students and teachers reclaimed more than **1,200** class room hours a year thanks to faster log-in times

University IT saved more than **13 weeks** of staff hours a year thanks to the hassle free OS and automated management solution and achieved almost 100% endpoint availability
