

# What is Stratodesk?

Stratodesk is the visionary company behind the next generation software solution, **NoTouch Software**. A blend of hyper-powerful endpoint management and Linux-based operating system, Stratodesk software is more than just an endpoint OS and management solution for Thin Clients – it's an entire platform capable of managing cross platform, multi cloud and IoT deployments solving the widest range of common business challenges possible.

Our software is used around the world by thousands of customers, with over **400,000** licenses deployed globally. Our family of hardware partners, technology leaders, and all-star resellers and distributors is second to none.

## »» PC Conversion to Save Costs

Enterprises, organizations and small-to-medium-sized businesses take advantage of Stratodesk's PC Conversion solution to save money and increase corporate security. Our Linux-based operating system quickly deploys onto endpoint devices, old and new, and converts them into Thin Clients. Hardware agnostic and versatile, Stratodesk software transforms your mixed collection of disparate endpoint devices into a standardized, cohesive fleet of high performance thin clients – minus the drastic hardware overhaul costs.

## »» Automated Endpoint Management Saves Fortunes

Without our management solution, thousands of organizations and enterprises and hundreds of thousands of workers would not be able to get their work done. Our software makes it possible for IT managers and system administrators to get a real time overview of their entire VDI, Cloud or IoT deployment and make changes that are vital to the integrity of their secure digital perimeter with a matter of a few clicks. Endpoints the world over are securely accessible and manageable within the confines of a single management center.

A true boon to IT everywhere regardless of industry, Stratodesk software saves countless hours of management hassle every year.

## »» Preconfigured for Major Providers

Stratodesk comes ready to connect to major providers like Citrix, VMware, Amazon Work Spaces, Microsoft Azure and beyond, doing the heavy lifting of connecting local and remote workers automatically so that you don't have to.

Contact your local Stratodesk reseller or us directly for an easy quote – Stratodesk's pricing structure is incredible simple.
