# Stratodesk Products and Solutions

Stratodesk has been a specialist in endpoints for years – all of our products are centered around EUC (End-User Computing) – VDI and IoT. Our primary product and core competency, NoTouch Desktop™, is a hardware agnostic operating system and management environment for Server Based Computing / Virtual Desktop / Terminal Services / Remote Desktop environments. We complement server-side solutions from Citrix, VMware, AWS, Azure, Microsoft Virtual Desktops, Nutanix, and others on the client side.

## »» NoTouch Desktop (NoTouch OS and NoTouch Center)

**VDI ENDPOINT – PC REPURPOSING – DaaS**

NoTouch Desktop is the #1 Thin Client endpoint OS and management solution in the world. Comprised of both NoTouch OS and NoTouch Center, NoTouch Desktop lets you transform any PC, Thin Client, Laptop or Raspberry Pi device into a secure and centrally managed Thin Endpoint. You can also instantly deploy NoTouch OS onto thousands of devices and manage them from one browser.

## »» NoTouch GO

**WORK FROM HOME / BYOD**

NoTouch OS on the GO. Enable Work From Home (WFH) with NoTouch GO by running NoTouch OS on any hardware device: x86 or 64-bit based device including Laptops, PCs and Thin Clients. Enable Bring Your Own Device (BYOD) with NoTouch GO, the VDI device network included. The only administration solution that can manage x86 and ARM devices.

## »» Workspace Hub

**WORKSPACE IoT**

Stratodesk is the #1 global Citrix software partner. Our Linux based OS powers the Workspace Hub and delivers cutting edge device management to your preferred VDI. Citrix Ready verified, low cost device that meets the performance, security and manageability demands of an enterprise grade zero client and future proof Workspace IoT device.

## »» NoTouch IoT

### INTERNET OF THINGS – IoT

Proven operating system and device management platform for IoT devices like Raspberry Pi and Jetson Nano thin clients. Solves IoT security problems and delivers unmatched manageability features in the IoT space.

## ADD-ONS:

## »» NoTouch Cloud

### CLOUD COMPUTING

Cloud hosted device management platform - managed by Stratodesk - for secure administration of VDI and IoT devices.

## »» Cloud Xtension

### SECURE CONNECTIONS IN THE CLOUD

Cloud Xtension enables the secure authentication, connection, and data transfer to x86 and ARM based Stratodesk endpoints no matter where they are in the world. With Cloud Xtension, enterprise IT can easily connect and manage remote and home-based endpoints without a VPN or leased line.

## »» VPN

### CONNECT WITH AN VPN VENDOR

In order to ensure enterprises enable an effective remote workforce, Stratodesk software supports a wide range of VPN solutions including: Cisco AnyConnect, F5, CheckPoint, Fortinet, OpenVPN.

## »» Disk Encryption

### ENHANCED DATA SECURITY

Protects all vital information from being physically accessed by unauthorized users and offers Disk Encryption to encrypt all data on the writable portion of the disk. This means that in the case of a device being stolen or illegitimately accessed, the data cannot be read. Even in VDI deployments where most personal information is not stored on the endpoint device itself, with Disk Encryption, any additional data, including URLs or private network certificates, will also be encrypted.

# STRATODESK USE CASE SOLUTIONS

Stratodesk is the leading VDI and DaaS endpoint OS and management solution. Our software solves common obstacles facing virtual desktop deployments while saving costs and driving ROI.

## »» Work From Home

Stratodesk mobilizes Work From Home by enabling your Remote Workforce to access and manage virtual apps and cloud workspaces with its NoTouch Desktop solution – from anywhere, on any device. NoTouch Desktop is comprised of NoTouch OS and NoTouch Center. NoTouch OS is a secure, linux-based OS that runs on any x86 and ARM (ie: Raspberry Pi) device, and lets you connect to almost any VDI client. NoTouch Center is a browser based platform that allows IT admins to automatically manage VDI endpoint devices from anywhere.

## »» BYOD (Bring Your Own Device)

NoTouch GO is a lightweight Thin Endpoint that can run on virtually any endpoint device. Enable your mobile workforce and secure personal devices by giving them access to the apps and data they need whenever, wherever.

## »» Thin Clients and Raspberry Pi

NoTouch OS natively powers ViewSonic, NComputing, and ClearCube Raspberry Pi Thin Clients. With NoTouch software, you can fluidly manage both Raspberry Pi and x86 devices, unlocking unparalleled options to cost effectively scale your environment. Stratodesk is the first to make the Raspberry Pi Thin Client enterprise ready. Get high performing and affordable Thin Clients directly from Stratodesk with NoTouch OS preinstalled with our hardware partners including HP, LG, Dell, Tonk, and ClearCube.

## »» PC Repurposing and DaaS

Eliminate the need for capital investments of hardware by repurposing your existing hardware into high performing endpoints. NoTouch OS is hardware agnostic and runs on 99% of all existing hardware, even the most cutting edge x86 and Raspberry Pi Devices. NoTouch Desktop works with your DaaS environment to cut costs, increase security and streamline endpoint management. Replace all of your Windows instances with NoTouch OS and securely manage thousands of machines from one central location with NoTouch Center.

## »» Mixed Environment

Stratodesk's advanced, Linux based software, NoTouch, makes it possible to manage a mixed environment of PCs, Laptops, Thin Clients, and ARM based devices (including the Raspberry Pi) regardless of make, model, or manufacturer. Stratodesk installs directly onto your endpoint devices, transforming them into high performing, NoTouch endpoints. Get the full benefit of a Stratodesk NoTouch ecosystem when you use Stratodesk's repurposing software.

# STRATODESK VDI ENVIRONMENT SOLUTIONS & INDUSTRIES

Stratodesk software works with your preferred environment to unlock its full benefit. Stratodesk offers solutions for many VDI environments including:

- Amazon Workspaces
- Citrix
- Inuvika OVD
- Nutanix Frame
- Remote Desktop Services
- Teradici Cloud Access
- Windows Virtual Desktop
- VMWare Horizon View

We also offer unique solutions for many industries including: Education, Enterprises, Small and Medium Businesses, Financial and Legal Services, Healthcare, Government and Military, Manufacturing, and Retail.

**Contact your local Stratodesk reseller or us directly for an easy quote – Stratodesk’s pricing structure is incredible simple.**
