

**UNLOCK YOUR SUSTAINABILITY POTENTIAL AND REDUCE ENERGY EXPENSES.**

The world is producing

**50**

million tonnes of e-waste every year.

**Did you know?**

**5%**

e-waste production growing annually.

**ACCELERATE DIGITAL TRANSFORMATION**

Optimize the global work environment by extending hardware lifespan and reducing energy consumption.

**REDUCE WASTE**

Reduce power consumption, by installing Stratodesk NoTouch on your endpoints.

Invest in laptops and PCs that offer energy-saving capabilities.

Save energy by enabling power management settings to automatically hibernate or shut down idle devices.

**REUSE HARDWARE**

Reuse your current devices through PC Repurposing.

Upgrade hardware components: thin clients and the device's pre-installed OS by installing NoTouch OS to extend the device's life.

Equip users with secure and quick access to apps and data from anywhere.

**RECYCLE**

Dispose of your outdated laptops and PCs with an environmentally friendly e-waste recycling partner.

Collaborate with manufacturers with take-back programs for end-of-life devices.

Eliminate physical storage and hardware with cloud-based solutions, reducing e-waste significantly.

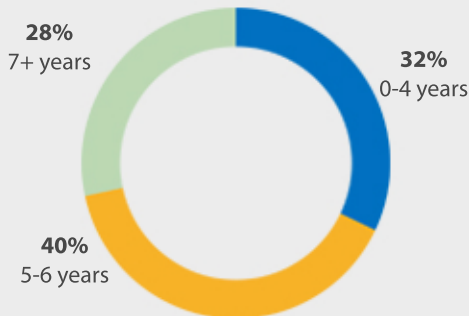

Stratodesk is leading the way in reducing the carbon footprint and IT waste.
